REISSUE APPLICATION NUMBER: 10/052,528

TO LIE:

Application has already been docketed.

Please endorse but do not enter the preliminary amendment filed 1/17/02

Forward Reissue Application to the Examiner.

TO EXAMINER:

A litigation search has been made and results secured to right flap of filewrapper;

A memo explaining the "Recapture Rule" has been inserted into the file.

A "Reissue Application Checklist" to be completed by the examiner has been included, as well as a "Reissue Guide".

Order all parent cases.

A quick look at the file reveals the following: the newly added claims have not been presented in a proper reissue format – they should have been underlined in toto (37 CFR 1.173(d)). Do examine the claims but ask the atty to submit, in response to your action, the new claims in proper reissue format.
